Patent No. 6703491
GENERAL INFORMATION:
GENERAL INFORMATION:
APPLICANT: Homburger et al.
TITLE OF INVENTION: Nucleic acids and proteins of Drosophila melanogaster:
FILE REFERENCE: File Reference: 7336-094
CURRENT APPLICATION NUMBER: US/09/270,767
CURRENT FILING DATE: 1999-03-17
NUMBER OF SEQ ID NOS: 62517
SOFTWARE: PatentIn Ver. 2.0
LENGTH: 998

Sequence 30507, Application US/09270767
Patent No. 6703491
GENERAL INFORMATION:
APPLICANT: Homburger et al.
TITLE OF INVENTION: Nucleic acids and proteins of Drosophila melanogaster
FILE REFRENCE: File Reference: 7326-094
CURRENT APPLICATION NUMBER: US/09/270,767
CURRENT APPLICATION NUMBER: US/09/270,767
SOFTWARE: PatentIN Ver. 2.0
SOFTWARE: PatentIN Ver. 2.0

Sequence 4752, Application US/10956157
Publication No. US20050118625A1
GENERAL INPORMATION:
APPLICANT: Wyeth
APPLICANT: Wounts, William
TITLE OF INVENTION: NUCLEIC ACID ARRAYS FOR DETECTING GENE EXPRESSION ASSOCIATED WITH-
TITLE OF INVENTION: HUMAN OSTEOARTHRITIS AND HUMAN PROTEASES
FILE REFERENCE: 031896-043000 (AM 101081)
CURRENT APPLICATION NUMBER: 120/4-10-04
NUMBER OF SEQ ID NOS: 319805
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           1498

COMMENT	1st strand cDNA was primed with a NotI-oligo(dT) primer. Five prime
	end enriched, double-strand cDNA was digested with Not I and cloned
	into the Not I and EcoR V sites of the pCMVSPORT 6 vector. Library
	was normalized. Library was constructed by Life Technologies, a
	division of Invitrogen.

2 rue Gaston Cremieux, CP 5706 - 91057 EWY cedex is in the tarand cDNA was primed with a Not-1c-1ggo(GT) primar. Five prime end enriched, double-strand CDNA was digested with Not I and cloned into the Not I and EcoR V sites of the pCMVSPORT 6 vector. Library was normalized. Library was constructed by Life Technologies, a division of Invitrogen. This sequence belongs to sequence cluster

1st strand cDNA was primed with a Not1-oligo(dT) primer. Five prime end enriched, double-strand cDNA was digested with Not I and cloned into the Not I and Ecok V sites of the pCMYSPORT 6 vector. Library was normalized. Library was constructed by Life Technologies, a division of Invitrogen. This sequence belongs to sequence cluster
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     120

Ist strand CDNA was primed with a NotI-oligo(dT) primer. Five prime end enriched, double-strand cDNA was Gigsted with Not I and cloned into the Not I and EcoRv Sites of the pCMVSPORT 6 vector. Library was not normalized. Library was constructed by Life Technologies, a division of Invitrogen. Library was constructed by Life Technologies, a This sequence belongs to sequence cluster 9980.f
